**"Help The Helpless for Better Life"**

Thanking you.

Yours truly,

For Vasavi Clubs International

Aitha Ramulu  
International President

# Vasavi Clubs International

## ANNEXURE - 1

### DETAILS OF WORK DONE

Vasavi Clubs International, formerly known as International Association of Vasavi Clubs is a International network of 1035 Clubs across the country and overseas. The clubs are mainly located in the districts of Andhra Pradesh, Karnataka, Maharashtra, Orissa, Tamilnadu, Yanam, Haryana, New Delhi. However 24 Vasavi Clubs are located outside India with limited service activities. The Association is involved in various developing activities for building a Stronger and Self Reliant Society.

The Association does not believe in developing programmes that are less useful to the Society. A strong effort is made to identify gaps in provision of services, and not duplicate efforts of other Non Governmental organisations or even the Government programmes. The Association works closely with othe organisations to realise its mission of responding to the serious needs of people with disabilities. One such example is Vijayawada chapter of the Association partnered with the District Rehabilitation Centre - DRC, Krishna Dist. Andhra Pradesh in provisioning the most necessary element of physical rehabilitation supports to the poor disabled persons the **artificial limbs**.

Vasavi Clubs International is provisioning the most necessary element of physical rehabilitation supports to the poor disabled persons, the artificial limbs.

**Total Number of Persons with Disabilities who benefitted from the Artificial Limbs provided by the Association is 4,639**

Social Welfare, Vocational training and empowerment of persons with disabilities is on top of the agenda for Vasavi Clubs International. The very beginning of the Association started in the year 1993 began with reaching out to the needs and aspirations of persons with disabilities. The objective of promoting Self Employment for the poor, turned out to be a corner stone for empowerment of persons with disabilities. Other programmes like Awareness, Education, focusing on the health awareness of the poor communities essentially based itself on the premise that prevention of disability is possible through increasing awareness amongst the poor communities.

# Vasavi Clubs International

All most all our local chapters provide direct services to persons with disabilities accross the country. The service provision is one through the community based rehabilitation model. Through the specially establised centres, persons with disabilities avail the necessary services, and the key aspect is the issue of inclusion.

All the services are provided within their community and is based on the assumption that the persons with disabilities are part and parcel of the community and every service provided to them will have to be provided to them within their own community. This principle is our institutional value and being promoted as a community based rehabilitation initiative.

### CONTRIBUTIONS

Right from the beginning of the Association (1993), it was the programme for empowerment of persons with disabilities that made 35,139 of its members take pride in reaching out to more number of people. Most significant aspect of the programme is that Vasavi Clubs International is completely self-financed, independent and self managed institution. By stating this, the Association gains immense respect amongst the general community members. The Association has taken up various welfare activities exclusively for the Disabled Persons and providing them with various supports.

In brief the following are the broad programmes focusing on persons with disabilities :

1. Early detection and medical assessments programmes
2. Referral services for persons with disabilities and others requiring intensive interventions by the hospitals and other institutions.
3. Educational services - special education, scholarship support and books, stationery and some times basic food and living supports
4. Specialised appliances supports for children, young men and women, and adults for aids and appliances like; crutches, tricycles, artificial limbs, hearing aid, walkers and spectacles.
5. Medical remediation - including medicines, basic counselling, surgical interventions like cataracts, orthopaedic surgeries and other major surgeries.
6. Vocational/technical education supports and scholarships for higher education
7. Employment assistance, loans and grants for small businesses, other Self employment assistance like bank linkage, direct loans and technical supports for successful business management.
8. Partial or Full Assistance for building rehabilitation and educational infrastructural supports; for regular schools, special schools and for building class rooms and school buildings.

#### **Initiating comprehensive services for people with various disabilities :**

Around the country, in all its clubs the Association follows the rehabilitation protocols as follows :

Assesment and Diagnostic services: The first critical appraisal for identification and follow up of persons with disabilities is taken up as a universal step accross the medical camps. Once the persons having disabilities are identified, the second step of referrals for appropriate medical interventions like medicines, surgical referrals, and importantly for provision of therapy and appliances is taken up.

# Vasavi Clubs International

In fact the Association following its unique service model takes up the individuals for further education, vocational education and at later stage for self employment supports.

**No. of medical assesment camps conducted for  
identification of disability 2,835**

**No. of persons provided with cataract surgeries 22,579  
No. of persons provided with Tricycles is 3,730**

One strongest component of disability initiatives of the Association is fitting up aids and appliances for disabled persons. Crucially, the **Association engages services of the various voluntary organisations** involved in manufacturing of the appliances for supply and fitment. Thereby establishing proper linkage between the producer and the final consumer. Also by diversifying various needs in terms of the aids and appliances Association is able to network appropriately with agencies involved in rehabilitation, for optimising on the resources available.

**Total No. of persons who received hearing aids are 3,283**

Critical role of the local level Associations play is that of **follow up service** support through the identified agencies. Being located in the smallest towns of the state, there is high accessibility on the part of the E.C. members of club for any service required from the beneficiaries. The Association also ensures that the infrastructure that is available locally is also made use to the fullest potential. The objective is to ensure that the true convergance of services happen within the framework of availability. It is of tremendous value to understand that this approach is working with greatest amount of coordination for the simple reason that entire community is involved in the process. The Association undertakes the responsibility of **raising the necessary monitory resources** required of the demand, and also of **infrastructual requirements**, the appliance workshop takes care of the **manufacturing the aid**, and the local agency whether a school or a service organization ensures that the **follow up service** is provided to the beneficiary.

# Vasavi Clubs International

In each of the case, total assessment method adopted ensures that the person needing the appliance, may also require a scholarship to pursue education, a special school for educational reinforcement, and a hostel for long term stay. All these requirements are responded positively by the Association. This is the unique and true strength of the Association - **This is where unconditional support is often extended for a longer period of 4-5 years.** Hence it may be concluded that the services of the Association focuses on servicing the individual with disability with a recognition that he or she is a person with several needs requiring multi faceted interventions, and not just an aid or an appliance.

## The types of the Rehabilitation aids provided by the Association are :

Tricycles, Crutches, Spectacles, Hearing aids, Artificial limbs, Walkers.

**Total No. of persons provided with crutches are 3,166 pairs**

This uniqueness of the Associations' work with persons of disabilities is to do with its ability to supplement with other relevant crucial services. Such person would benefit out of it unlike a typical welfare body just dumping one service or item (regardless of the needs, most of the service organizations end up stocking up a pile of appliances, not useful for the local beneficiaries without using them because they don't truly benefit from it!)

The Association also focuses its efforts on endlessly looking for potential partners in its work; the schools, scouts and guides, colleges, hospitals, homes for the aged and so on.

## EDUCATION

The Association undertakes various activities to encourage students who cannot afford to go for Higher education in spite of qualifying. The Association distributes free School Uniforms, Note Books & Other Stationery Items to the poor & needy students. Meritorious students are given scholarships and cash awards are given to meritorious students.

**No. of Children benefited under the Education supports is 28,637**

Educational infrastructure supports to the schools by way of construction of the rooms and some times the entire school building.

- Educational scholarships
- Educational loans
- Educational assistance by free text books, note books; hostel facilities

# Vasavi Clubs International

**Vasavi Sawaswathi Padhakam :** Under Saraswathi Padhakam (Educational Scheme), the key educational mandate for all the chapters is to enable local schools focus their attention on disability related education. One of the critical infrastructural inputs extended by the Associations is building class rooms for schools for mental disabilities.

**No. of Class rooms constructed is 52 hostels/homes with 3,039 beneficiaries**

Book Banks to provide the Text Books to the students of Intermediate and Higher Studies. The Book Banks will be financially assisted by the National Body on matching grant basis to the Clubs to an extent of Rs. 5,000/- to each club in each year or 50% of the Project Cost upto a maximum of Rs. 10,000/- per project per annum.

**Also in the areas of Medical, Health and Surgical intervention :** The Association is involved in organizing free Medical Camps and in distributing free Medicines to population living in the remote rural areas & slums of major towns and cities in Andhra Pradesh. Association also conducts Polio vaccination camps, Blood donation camps, Dental Camps in remote areas.

**In Terms of the Surgeries, 412 persons underwent surgical interventions.**

- a. Provision of free medicines
- b. Free Surgical Interventions ranging from simple cataract to supports for complex orthopedic surgeries

**Partnership with other private corporations for promotion of Self-Employment:** The unique self employment scheme was introduced in the year 2004-05 with the financial support of GMR Vara Laxmi Foundation for starting a business activity or improving their existing one. Interest free loan of Rs. 15,000/- to each beneficiary is to be repaid in 15 monthly instalments. Till date 21,520 beneficiaries have availed the scheme.

In addition to this our local Association extend self employment supports by providing sewing machines, wet grinders & the necessary financial assistance to the needy women. The Association encouraged a large number of persons with disabilities income generating assets like sewing machines and wet drivers. They were provided to help these poor women earn their livelihoods by satying back at homes.

**A total of 19,375 persons were provided with Sewing Machines and Wet grinders**

# Vasavi Clubs International

**Public Awareness Campaigns on various social evils:** The Organization intends to create awareness among people living in Rural & Urban areas in the field of Hygiene, Health & education and the ill effects of Social evils such as Tobacco, Alcohol and Aids by organising "No Tobacco Day", "Aids Awareness Day", "No Smoking Day".

Another most important aspect of the Association is the close ties with the communities, and the governments as well; The respective Individual chapters have; whether schools (**VCI has built 3 schools one for the blind children, one for the mentally retarded and one for a government school for girls**), home for the aged (**Association has built a home**), rehabilitation centre and special schools (**Association has built a building for the blind, and mentally retarded**), Hospitals (**VCI manages an urban health post**).

**Focus on visual disability and other problems :** Considering that the most of Association members are located in the small towns and large villages, need expressed by the local communities all along has been the camps for identification of visual problems; cataract, blindness, and other treatable problems. As part of prevention of blindness campaign and the mass awareness programmes, the Association has been able to reach out large number of needy poor people. To respond to their needs the following specific program were taken up in association with L.V.Prasad Eye Institute, Chiranjeevi Blood Bank, and several other local and national visual rehabilitation centres.

**Number of persons operated for Cataracts: 22,579**  
**Total number of eye balls collection : 523**

During the surgeries, the role of members the Vanitha wings members (the exclusive women member wing) in responding to other needs like clothes, utensils, and distribution of fruits and food items is quite appreciable.

Another important programme that goes along in all the major occasion is the blood donation camps. All the 1,035 chapters around the country, the blood donation camps are organized on every important community event, making it a huge bridge between needy people and donors.

**The total number of Blood units collected over the last 20 years is 78,387 units**

# Vasavi Clubs International

The Polio eradication programme is strongly advocate by the Association, and all the 1,035 clubs were expected to play their roles in organizing and helping the communities and the governments in detecting the polio and finally eradicating the evil virus from the country.

**International Disability Day :** The key goal of the Association in its work on disability is to include Disabled Persons in the mainstream of the Society. That is the key reason why all its programmes and assistance to the persons with disabilities are part and parcel of the community affairs.

The Association makes it a point to observe 3rd December as The International Disability Day together with the various partners in all the local chapters. Even the events like Independence Day and the Republic Day Celebrations are held mainly at Institutes for persons with disabilities. On the occasion of the International Disability Day every year, the Association Organizes camps for detection, need assessment, distribution of various appliances like Crutches, Tricycles, Hearing aid to the needy beneficiaries outside the regular programmes of the Association. During these occasions, several other needs are responded because of high volunteerism of members and communities like the distribution of educational and basic articles to various children of local schools for the Blind and Deaf & Dumb.

## ANNEXURE - 3

### ASSISTANCE TO DISABLED POPULATION

Sl.	Name of the Program	No. of Beneficiaries (Figures upto August,2013)
01.	Provision of rehabilitation Aids - Artificial Limbs	4,639

### a. Setting up of institutions for serving persons with disabilities

Name of the Centre	Place	No. of Beneficiaries
Proposed to set up Medical and rehabilitation centres	At 9 Places in AP	Approximately 410 per centre

### A BRIEF ACCOUNT

Vasavi Clubs International formerly known as IAVC was formed on 3rd January 1993 as an apex body to administer the Vasavi Clubs with the sole aim of serving the persons of Disabilities, under privileged, and focusing on their needs in the areas of Education, Health Care, Self Employment & at the unfortunate times of Natural Calamities and Disasters. Since its inception the Vasavi Clubs had gained momentum and witnessed a stupendous growth making **Total No of Clubs as 1035 as on date.**

Growth of Vasavi Clubs & its activities had increased manifold to Fellowship, Leadership and Personality Development. Social Service activities were given utmost importance.

- \* 1st Vanitha Club was started in Vizianagaram in the year 2001-02 to provide equal leadership rights to women.
- \* 1st Couples Club started to encourage couples to become effective partners in service activities also.
- \* In the year 2004-05 a Teen's club was started at Visakhapatnam for the age group of 13 to 19 years.

**Formation of Districts :** As the organisation grew in strength with about 92 clubs, a lot of planning had gone into the reorganisation of the administrative mechanism by the formation of DISTRICTS which came into operation from 01.04.2000. The International Governing Board was formed for manning the administration of various Districts.

The International body is headed by the INTERNATIONAL PRESIDENT elected at the International Convention. The International President nominates the International Officers which constitutes the International Governing Board(IGB) to monitor the activities of Districts and making and implementing the policies of organisation.

International Executive Body will personally attend to the Service Projects done in different places; besides Goodwill visits to Vasavi clubs by International President. 239 Good will visits have been done by the present International President Vn.Aitha Ramulu throughout the country for monitoring and pursuing the functioning of Vasavi clubs at base level.

Nine dedicated staff members are working in the office to look after various activities of Vasavi Clubs at field level and the total administration of the Association.

In view of increasing volume of services and for smooth and effective functioning of VCI, We have hired a Retired Senior Personnel of a Nationalised Bank as Chief Executive Officer.

Our Organisation Website was introduced in March 2005, where as Secretariat office was fully computerised in the year 2006-07; Inception of advanced technology helped all our Clubs at grass root level in submitting various controlling returns such as CMRs, and the required data by way of Form No. 1006 and 1008 etc., to the apex body.

# Vasavi Clubs International

**Training Programmes :** In the year 1995-96, our Association Leaders felt Training and Leadership qualities for management is the need of the hour and thus introduced the same initially to the then Officers. A Number of other Training Programmes were also introduced to energise and empower youth to execute their responsibilities at high motivational level.

- . Office Bearer's Training Seminar (OBTS) - to improve Business Management Skills.
- . Vasavi Academy of Leadership Training (VALT) - to improve Individual Development.
- . Governor's Academy of Training and Empowerment(GATE) - to educate & empower local administration.
- . Deputy Governor's Training Seminar (DGTS) - to creater awareness of Health activities in Urban areas
- . Zone Officer's Training Seminar (ZOTS) - to improve Time Management Skills.
- . Train the Trainers Workshop - to deserving candidates keeping in view of upcoming leaders.

# Vasavi Clubs International

## K C G F (K.C.GUPTA FELLOW)

The greatest honour VCI can bestow is its recognition of an individual as K.C.Gupta Fellow. KCGF was introduced in the year 1995 to raise Corpus fund in the name of Founder Late K.C.Gupta.

The KCGF donors receives a pin and a plaque featuring Vasavi Monogram, Photo of K.C.Gupta and the Donor's name will be inscribed on the plaque.

As on date VCI holds 20142 KCGFs - voluntary contributions from our members only. We have made Fixed Deposits amounting to Rs.431.03 lakhs at various Nationalised Banks. The interest earned on the Corpus funds will only be spent at the time of Natural Calamities and for the purpose of Educational Assistance to Intermediate and above courses under the banner of Vasavi Saraswathi Pathakam on Matching grant basis to the clubs.

Date : 30th September 2013

To,  
The Director  
National Institute for the Mentally Handicapped  
Manovikasnagar,  
Secunderabad - 500 009.

Dear Sir,

Sub : Application for the National Award for the BEST INSTITUTION  
in the field of disability.

At the outset, we convey our sincere thanks for considering our application for the "National Award" to be given by the Ministry of Social Justice & Empowerment, Govt. of India. We are confident that the enthusiasm of all our Vasavi Clubs and the Team of officers will boost up in extending further services to the needy disabled persons.

It gives us immense pleasure to share with you that our Vasavi Clubs International is ready to work with any Government agencies in taking up suitable Service Project which really renders helping hand to the people with disabilities.

This has reference to the personal discussions had with your goodself by mc, Sri Pippala Ashok, Sri Mashetty Upender, Sri Katturi Krishna and Sri Pabba Bheem Shanker.

While assuring you for our good services at all times, we take the opportunity of extending our gratitudes for your kind support once again.

Thanking you.

Yours truly,  
For Vasavi Clubs International

Aitha Ramulu  
International President
